Security Threat Groups

What is a Security Threat Group (STG)?

A formal or informal ongoing group, gang, organization or association consisting of two or more members who have a common name or common identifying sign, color(s), or symbol(s). A group whose members/associates engage in a pattern of gang-type activity or violation of laws/regulations.

Security Threat Groups In The Military?

Are there currently active groups of individuals forming street type gangs and extremist groups on Military Installations? From research gathered from the US Army, US Navy, and US Air Force, there is no evidence that groups of servicemen or women are forming what would be considered “Street Gangs” or “Hate Groups” solely based on

Security Threat Group Members in the Military?

There is ample evidence that members of the Armed Forces have had previous, or have current and active contact with criminal street gangs or extremist groups. There are members of these groups currently on active duty with the military.

What Has the Army Provided Commanders for Use to Combat These Groups?

AR 600-20, para. 4-12, A, Participation: Military personnel must reject participation in extremist organizations and activities. Extremist organizations and activities are ones that advocate racial, gender, or ethnic hatred or intolerance; advocate, create, or engage in illegal discrimination based on race, color, sex, religion or national origin; advocate the use of or use force or violence or unlawful means to deprive individuals their rights under the United States Constitution or the Laws of the United States, or any state, by unlawful means.

How do service members get involved in these groups?

The service members in almost every case have had prior membership in these groups and merely re-associate themselves with local groups through contact at night clubs, malls or public events.

Gang members can spot other gang members with little trouble as this is a survival technique they have learned since they were first initiated into gangs.

Soldiers involved with extremist

Is Prior Security Threat Group Affiliation a Safety Issue?

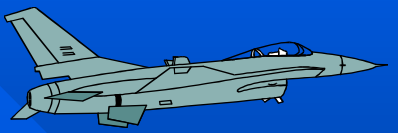
Prior affiliation is not a safety issue within the military for two main reasons.

1. Military installations and surrounding areas are initially considered neutral turf, and therefore association with those considered
rivals is not an issue.
2. The service member does not

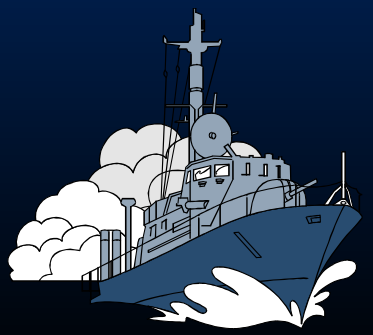
How Are Security Threat Group Members Identified?

Military Law Enforcement utilizes several different methods to identify potential gang/extremist members within the ranks:

- **Extensive use of "Health & Welfare" Inspections by Commanders who find gang/extremist paraphernalia.**
- **Direct contact with Local Law Enforcement Agencies who identify gang members through direct contact.**
- **Mandatory Tattoo checks conducted by Commanders and**



Gangs And The Military



Gangs - what are they made of?

Gang Names

Many gangs adopt names that have significance when related to their neighborhoods (streets, parks, hills, valleys or housing projects).

Nick Names

Many gang members adopt nicknames when recruited into the group, if they do not already have one. The gang tends to select a name that fits the individual's physical or psychological characteristics.

Leadership

Gang members do not fit the movie image in which they are portrayed fulfilling specific roles in the gang such as president or enforcer amd wearing jackets similar to those worn by many car clubs having rigid structures.
Rather, leadership roles in street gangs are usually not formally recognized positions. They are assumed by a member who demonstrates or asserts dominant control at a particular time. His leadership may continue for the particular incident or a limited time thereafter. With smaller gangs, however, it is more likely that a single individual will become a recognized leader.

What do gangs do?

Gang Activity: What Do Gangs Do?

It is not practical to examine everything a gang does. In fact, many gang activities are frequently shared by a large portion of society. But when a gang is involved in a weekend party, or attends a public event such as visiting an amusement park, the potential for violence and criminal activity is far greater than for any other group of people. Gang members seek confrontation with rivals. The resulting violence often claims innocent victims.

While gang violence often makes headlines, it creates even more damage on a regular basis to local property and business. Vandalism, in the form of graffiti and the wanton destruction of public and private property, is often done in furtherance of the gang's reputation. Abandoned houses are favorite targets for vandalism but even occupied homes do not escape. Local businesses suffer not only from the property damage and graffiti, but also from loss of customers and employees. Businesses facing decreasing revenue and rising insurance costs close their doors leaving another abandoned building for the gang. However, the majority of residents in a gang area who are unable to move away, live in fear.

“Black” Street Gangs

“Black” street gangs originated in the late 60’s in L.A. and Chicago. The term “Black” is relative in that these groups do not discriminate by race. In many inner city and rural areas these gangs have a diverse racial makeup. The “Crips” & “Bloods” began in L.A. and the “Folk” & “People” started in Chicago, but all have spread across the U.S. and the world, and have influenced popular

Sur 13 & Norte XIV????

To fully understand the relationships between Hispanic gangs it is necessary to understand the meaning behind 13 & 14. 13 stands for “M” which is the thirteenth letter of the alphabet and stands for “Mexican Mafia” or “EME”. 14 stands for “N” which is the fourteenth letter of the alphabet and stands for “Nuestra Familia”. Sur is South in Spanish and Norte is North and the two major prison gangs “EME” and “Nuestra Familia” have divided up California. Therefore Southern California gang members call themselves Surenos and Northern California gang members are Nortenos. These two groups have spread across the U.S. and local gangs routinely call themselves by these names even if

What is Graffiti?

Graffiti

Graffiti, a form of vandalism, is a problem that impacts our neighborhoods in a variety of ways. Without question, it decreases property values in residential neighborhoods and negatively affects industrial and commercial areas. Of greater concern is the inherent violence associated with gang graffiti. Gang members use graffiti to mark their gang's "turf" or territory. They also use it to advertise the gang's status or power and to declare their own allegiance to the gang. When a neighborhood is marked with graffiti indicating territorial dominance, the entire area and its inhabitants become targets for violence. Anyone on the street or in his home is fair game for drive-by attacks by rival gang members. A rival gang identifies everyone in the neighborhood as a potential threat. Consequently, innocent residents are often subjected to gang violence by the mere presence of graffiti in their neighborhood.

How to role

① lick blunt up & down once: to insure a good split

② Apply pressure to open end of the blunt until paper start to tear

③ Proceed to split blunt in a straight line (best you can) to the end

④ advance to empty tobacco.

CAUTION! Try not to Lose any of the ~~paper~~ paper.

⑤ Lick both sides of split paper to get paper to stick

⑥ Hold paper up right in palm of hand

⑦ Start placement of weed, making sure it's evenly place all over (middle), insuring all stems are laid flat

Major Hate Groups

The Fourteen Word Pr

David Lane, Author of the Fourteen Words. Currently in Federal Prison

"We must secure the existence of our people and a future for white children." "Those who control the once-White nations deny us White nations, White schools, White organizations and everything necessary for racial survival. We resist this deliberate and malicious genocide. Is that hate? If Whites do not immediately establish an exclusive White nation, then the beauty of the White Aryan woman will soon cease to exist on earth forever. We are taught to dread the extinction of spotted owls, so why is it a hate crime to love and preserve one's race? Is that hate?"

Aryan Nation

Richard Butler, leader of Aryan Nations

WE BELIEVE that the Cananite Jew is the natural enemy of our Aryan (White) Race. This is attested by scripture and all secular history. The Jew is like a destroying virus that attacks our racial body to destroy our Aryan culture and the purity of our Race. Those of our Race who resist these attacks are called "chosen and faithful." John 8:44; 1Thessalonians 2:15; Revelations 17:14"

Major Hate Groups

Knights of the Ku Klux Klan

"If the Klan were in political power laws would be enacted that would prevent American industry and property from being sold to foreigners. America should be owned by Americans - not Japanese, Arabs or Jews.... Until 20 or so years ago, nearly all states had 'sodomy' and miscegenation laws and statutes that were strictly enforced. Since that time they have been repealed or are ignored, the results are obvious with the plague of AIDS now ravaging our land. Both of these abominations against God and nature must be stopped if America is ever to return to the great Christian nation it once was. "

World Church of the Creator

"WE BELIEVE that the White Race, its Biological and Cultural Heritage, is now under attack by our mortal racial enemies: Jews, niggers and the mud races. WE BELIEVE that RAHOWA (RAcial HOly WAr), under the victorios flag of the one and only, true and revolutionary White Racial Religion-Creativity-, is the only road to the resurrection and redemption of the White Race"

Major Hate Groups

White Aryan Resistance

"As our march toward hell proceeds, it will empower us if we heed the advice of Dr. Charles Weber and refer to ourselves as "Aryans". Furthermore, let's quit the side-shuffles and notify the world that we are, indeed, racists. We have been labeled as such by our racial enemies and it's about time we acknowledged the fact. If by some quirk of genetic malfunction, you feel you are a genuine poon-tang loving race-mixer, then stay away from Holocaust discussions, free speech band-wagons, National Socialism tea parties, and all other blight-wing parades for you will eventually be labeled a "racist" no matter how many kowtows you perform or where you choose to stuff your silly little nose. Most blacks are racist. Most jews are racist. Most chinks are racist. Most mestizos are racist. Most vietnamese are racist. Russian jews are racist. Japs are racist. Our apartheid injuns are racist. They all share a common view: They do not want Aryans to be racist. Racism lends strength to a people and the last thing non-Aryans want is to be in the middle of Aryan strength. If White

What is the Army's Tattoo Policy?

AR 670-1 states: *"Visible tattoos or brands on the neck, face or head are prohibited. Tattoos on other areas of the body that are prejudicial to good order and discipline are prohibited. Additionally, any type of tattoo or brand that is visible while wearing a Class A uniform and detracts from a soldier's appearance is prohibited."*

A soldier who shows no connection with sexist/racist activity and has a tattoo that is racist or sexist in nature should be formally counseled concerning the tattoo and a determination made about having the tattoo removed. However, commanders are not recommended ordering the tattoo be removed, but administrative action such as bar to reenlistment should be considered. In some case even administrative separation is an option for soldiers who refuse to remove a tattoo. In any event leaders should be familiar with the Army policy and check with EO or CID if the question of a tattoo's meaning arises.

What can leaders do?

1. Become knowledgeable about what gangs and hate use to symbolize there participation.
2. Conduct “Tattoo” checks of unit members to determ soldiers in the unit have tattoos which could be cons in this category.
3. Conduct “Checks” of the barracks during health an inspections to see what soldiers are putting up on t and walls.
4. Contact “EO” and or CID to have the material or ta examined to determine what is going on.
